Experience

Software Developer

Freelancing

Remote

December 2023 – Present

- **Collaborated** with clients to gather requirements and translate them into functional specifications and technical designs.
- Created intuitive and responsive user interfaces and user experiences using **React.js** and **Material UI**.
- Designed and implemented efficient and secure back-end systems, including **APIs** and **server-side scripts**, using technologies such as **Node.js**, **Express.js**.

SDE Intern

Alfred Technologies

Remote

Nov 2020 – May 2021

- Built complex and robust backend APIs using **Nodejs** and **MongoDB** for a language learning portal.
- Features, I developed were JWT authentication using refresh token, tracking user progress along with **Leitner's system technique**, admin APIs.
- For the frontend I developed **admin panel** using React.js for moderators and a quiz portal for users.

Personal Projects

Shopmore [🔗](#)

- A feature rich and fully **responsive** E-commerce web application with seamless user experience facilitating user account creation, product browsing, fully fledged **cart system** and **Stripe payment integration** for secure and easy and efficient checkouts. Users can view and track their orders.
- The app has intuitive **admin panel** for efficient management of products, orders, and the users.
- Tools Used: **MERN Stack**, Nextjs, Tailwindcss.

Wynk-Chat [🔗](#)

- Developed a chat application using MERN stack and **SocketIO** enabling **real-time messaging**. App has one-on-one and group chat functionalities, with group admins having control over membership and group settings such as group name, participants, deleting group, etc. Users can send text messages, emoji, images and GIFs.
- Enhanced user experience with real-time **typing indicators**, **notifications** and personalized customization options such as **profile pictures**, status messages, and **chat background** image settings.
- Tools Used: MERN Stack, **Nextjs**, Tailwindcss.

Datadrift [🔗](#)

- Developed an website which provides **real-time analytics** on sales and user engagement, presenting complex data in an accessible and interactive manner.
- Implementation of data visualization with Chart.js, created **dynamic filters** and sharing them via query **URLs**.
- Tools Used: Reactjs, Nodejs, **Chartjs**, Tailwindcss.

Technologies

Languages: C/C++, **Javascript**, Typescript, Java

Technologies/Frameworks: **React**, Redux, Next.js, Node.js, Express.js, Material UI, **Tailwind**, Postman, JQuery

Databases: PostgreSQL, MongoDB

Online Courses & Certifications

Full Stack Javascript Web Developer [🔗](#)

Feb 2023 - Nov 2023

Complete GIT and Github Course [🔗](#)

July 2022 - Aug 2022

Education

Nagpur University

B.E in Computer Science and Engineering

Aug 2018 – July 2022

- Percentage: **80% agg.**
